Re: MRS. CHARLES ERLING, 218 French St.

Interviewed Mrs. Erling again today. She signed another statement which operative typed in the office upon instructions from Mr. Watson.

She informed operative that a tall man with glasses was in to her store last night and had asked her about the statement which Robert made on the witness stand regarding what he told his mother. She stated that she did not know who this man represented and that he said nothing further and left her store.

Respectfully submitted:
